

HYPRO® GuardianAIR Twin

High-Coverage, Low Drift Spray Nozzles

Features & Benefits

- Ideal for high-coverage application of post-emerge plant health protectants
- High-coverage forward and rear facing fans help penetrate complex canopies requiring more thorough coverage
- Incorporates the fundamental characteristics of uniform coverage and reduced drift from the world-renowned GuardianAIR nozzle range
- Engineered to provide better coverage with more drops per gallon compared to other air-induced sprays
- Easy-to-install, locking ring and o-ring seal design makes installation a snap and sealing a sure thing
- Dust is sealed out by the locking ring to reduce contamination of the nozzle when removing it from the sprayer
- Integrated strainers are matched to the nozzle size to prevent over-straining or plugging
- Available in sizes 02 - 08 (including 025) and color coded to indicate the flow for the entire spray assembly

Ideal for:

Air induced, twin pattern provides more uniform coverage over a wide operating range.

Ideal for high-coverage application of post-emerge plant health protectants..

Provides better coverage with more drops per gallon compared to other air-induced twin sprays.
