

# 380W BEAM MOVING HEAD

## USER MANUAL

**Please read and keep this manual carefully for further use!**

Thank you for buying our professional Beam moving head.

This user manual includes important information for installation and operation, so please read this user manual carefully before installation and operation, and keep this user manual well for further use.

In order to install , operate, and maintain the lighting safety and correctly. We suggest that the installation and operation should be done by the verified technician and follow the instruction strictly.

### **Spare part includes:**

| Name             | QTY | Unit |
|------------------|-----|------|
| Fixture          | 1   | PC   |
| User manual      | 1   | PC   |
| Power cable      | 1   | PC   |
| DMX signal cable | 1   | PC   |
| Safety rope      | 1   | PC   |

Please check carefully that there is no damage caused by transportation. Should there be any, consult your local dealer.

### **Cautions**

**Before delivery, this device has passed strict inspection, Please follow the user manual strictly for operation, if this fixture is damaged by improper operation and mistake, the fixture will be out of warranty, and manufacture or dealer won't be responsible for it. In case of any technology change in this manual,we won't advise in further .**

#### **CAUTION!**

**Keep this device away from rain and moisture!**

**Unplug mains lead before opening the housing!**

#### **Warning!**

**Damages caused by the disregard of this user manual are not subject to warranty. The dealer will not accept liability for any resulting defects or problems.**

### **Installation**

#### **CAUTION!**

**Please consider the GB7000.15/EN60598-2-17 and the other respective national norms during The installation. The installation must only be carried out by a qualified person.**

► This fixture is not suitable for direct installation on combustible material surface, please keep the fixture surface at least 0.5m from any combustible material.

- ▶ If you use the quick lock cam in hanging up the fixture, please make sure the quick lock fasteners turned in the quick lock holes correctly.
- ▶ The applicable temperature for the fixture is between -25°C to 45°C. Do not use the lighting under or above this temperature range.
- ▶ The truss for hanging the fixture should be able to hold 10 times weight of this fixture and no deformation after 1 hour hang.
- ▶ Please don't stand under the fixture when install, uninstall, move or repair the fixture.
- ▶ Please ensure the light is connected correctly and invite professional technician to check and confirm the electrical data before installation.
- ▶ Please invite professional technician to check the fixture and installation each year.

### **Rigging:**

Insert the quick-lock fasteners of the first holder into the respective holes on the bottom of the device. Tighten the quick-lock fasteners fully clockwise.

Fix the clamp on truss or other fixture bracket.

Pull the safety rope through the holes on the bottom of the base and fasten it on the truss or other fixing point.

Note: This step is quite important to ensure that fixture will not drop down for the clamp damage.

### **Product specification**

Voltage: 100-240V, 50/60HZ;

Power Consumption: 500W;

Fuse: 8A/250V,  $\phi$  5\*20

DMX Channel: 16CH

Operation mode: master-slave/DMX/Auto

Focus/Zoom: Yes

Fixed gobo: 12 gobos+open+ 5 glass gobos

Strobe: 25Hz

Color: 14 colors+open

Prism 1: 12-facet

Prism 2: 8+16-facet

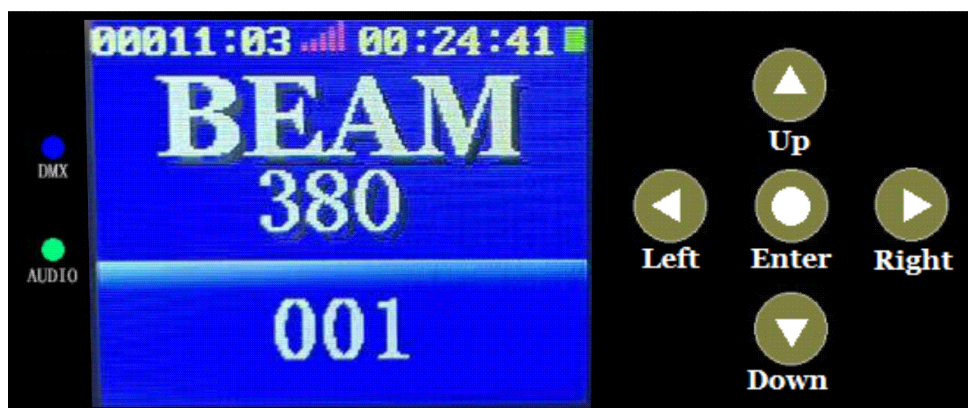

Pan: 540°

Tilt: 270°

Frost / Six-color effect: Yes

RDM: Yes

## Display and operation

Color Wheel:

## **DMX-512 connection**

Connect the provided XLR cable to the male 3-pin XLR output of your controller and the other side to the female 3-pin XLR input of the light. then connect the DMX signal to the first fixture to the 2<sup>nd</sup> fixture, after all fixtures are connected,

The signal cable should be two - core with screened cable with XLR input and output connectors. Please refer to the diagram below

## **DMX terminator connection**

If there are many lines or lights, it is recommended to use a DMX terminator to prevent DMX signal corruption, the DMX terminator is a simple XLR plug with a 120 Ω resistor connected between pins 2 and 3, which is then plugged into the output XLR socket of the last fixture in the chain.

3-Pins connection

## Cleaning and maintenance

Cleaning should be performed every 15-day period, by using a sponge which is dipped with alcohol, rather than wet cloth or other chemical liquid, to clean the mirror.

### CAUTION

Cut off power before cleaning and maintenance!

### Attention

Do not see directly light source when open the light, and make sure power off before do any installation or maintenance.

### CAUTION!

Never look directly into the light source,  
as sensitive persons may suffer an epileptic shock.

### CAUTION

Wires connection must be done professional person!

## Cautions

Before delivery, this device has passed strict inspection, Please follow the user manual strictly for operation, if this fixture is damaged by improper operation and mistake, the fixture will be out of warranty, and manufacture or dealer won't be responsible for it. In case of any technology change in this manual, we won't advise in further .
