

## Manual de Montagem Sobrado 1:14

### Andar Superior

Vista do Andar Superior

Vista Explodida  
Todas as peças do Piso Superior

## **Andar Superior**

Vista de baixo do piso onde será colada todas as paredes do andar superior.

Este reforço na parte inferior do piso é importante, deixará todo o andar superior bem rígido.

## Passo 01

Separar as peças L1A e L1B

Alinhe as duas peças como na imagem  
abaixo.

Estes riscos mostram a face superior das peças.

O buracos vazados servem para serem encaixadas as paredes.

Os riscos servem para alinhar as peças no momento da colagem.

### Passo 02A

Separar as peças:

- PS Suporte3
- PS Suporte2
- PS Suporte1

### Passo 02B

Estes Suportes serão colados por trás do piso, ou seja, no verso das peças L1A e L1B

### Passo 02C

Esta é a parte de trás das peças L1A e L1B. Os suportes devem ser colados. Veja que a peça não encosta nas bordas.
